

AWEP Safety Review

The safety and well-being of every participant is critically important. Complete this checklist with ALL participants and review any other relevant safety and emergency policies and procedures specific to your workplace.

trash/material in approved containers? FLOORS/AISLES: Are floors and other surfaces smooth? Are aisles clear of hazards that may cause falls? STAIRS/RAMPS: Is sufficient lighting present and functional? Are handrails installed and properly positioned? Are ramps/inclines equipped with non-slip surfaces? Are rungs free of cracks or breaks? Are hinges working properly? Are safety feet/braces in use? STORAGE: Is there sufficient space to minimize clutter? Do corners have unobstructed views? Are products stacked in an orderly and stable fashion? MACHINES/EQUIPMENT: Are standard safety guards or guides provided and in working order? Are machines/equipment in safe operating condition and maintained consistent with manufacturers requirements? Are warning signs regarding unauthorized uses attached to machines/equipment? MATERIALS HANDLING: Is material handling equipment provided, used and maintained according to manufacturers' instruction? MATERIALS HANDLING: Is material handling equipment provided, used and maintained according to manufacturers' instruction? MATERIALS HANDLING: Is material handling equipment provided, used and well maintained? If the provided in safe operating condition? If the provided in safe op	Yes No	N/A
